Barbican Apartment

Apartment Refurbishment & Extension

Location: Barbican, London EC2

This was a complete refurbishment of a fifth floor apartment including internal demolition, mechanical, electrical, furniture fit-out.

CLIENT:

“Attention to detail and good knowledge of all aspects of building work delivered with care. I have no hesitation in recommending MDH as able contractors and good managers.”

ARCHITECT:

“We have just completed a refurbishment of an apartment in the Cromwell Tower, Barbican, where MDH worked within strict building restrictions. Working around the listed structure, the internal configuration was altered and existing fittings and services stripped out. New sanitary ware and a kitchen were installed, as well as other fitted furniture.

MDH demonstrated a keen eye for detail and conscientious approach to the project. They were helpful in finding solutions to issues that arose.

We are very happy to recommend MDH and look forward to working with them ourselves on future projects.”
