## **Kensington Apartment**

**Apartment Refurbishment & Extension**

**Location: Kensington SW7**

This was a complete refurbishment of a first floor apartment including demolition, extension, re-roofing and turnkey bespoke fit-out.

Featured in Architects Journal January 2012, see page 2

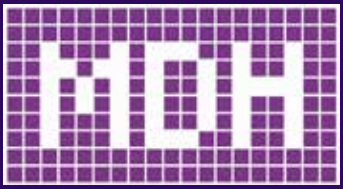

### **CLIENT**

*“MDH were a delight to work with on our project at Jay Mews and I have already recommended their work to family and friends”.*

### **ARCHITECT**

*“MDH have worked with us on two high-end residential refurbishments to date. The first project involved the alteration and extension to a first floor apartment in a mews building in Kensington. The site was very confined and MDH had to work carefully not to disturb the ground floor office, especially during the installation of a new staircase.*

*The works included the strip-out of the existing services, fittings, fireplaces and rooms and exposing the existing roof trusses. New structural openings were made and the two-bedroom apartment was extended to the rear, with a new terrace established. The roof was re-slatted and insulated. A very high quality was achieved with the timber floors and joinery, new kitchen and general decoration and finishes”.*
